CLASS DESCRIPTIONS

DRAWING - Grades 2-5 / Grades 6-10

This class draws a wide variety of subjects while focusing on classical drawing basics such as composition, perspective and shading. Students will learn techniques in various mediums such as pencil, charcoal, India ink, pastel and Prismacolor pencils.

JUNIOR DRAWING - Grades K-1

A good way to start your child's exposure to "real" art. This class teaches the drawing basics utilizing the same variety of art materials as the drawing classes. Designed for the mature younger child who has both good small muscle control and attention span.

ANIMAL DRAWING - Grades 2-5 / 6-10

Learn about and draw a different animal each day. Focus is on understanding and drawing animal conformation and appropriate techniques for creating fur, feathers, and other animal textures.

WATERCOLOR - Grades 2-5 / 6-12

Watercolor is FUN when you know how to do it! Emphasis is on mastering techniques such as wash, dry brush, wet-into-wet, salt, scoring, scraping, resist & spatter to create still lifes and landscapes. We use tube watercolors, professional brushes and good quality watercolor paper.

SAMPLER- Grades 3-6

One of the most popular summer classes, each day will focus on an alternative fine art medium: Chinese brush painting, printmaking, scratchboard and acrylic painting on canvas.

FACES - Grades 7-12

Unlock the secrets to drawing faces successfully. We'll do self portraits and also pose for each other while learning how to draw features in profile, full face and three-quarter view. Strong emphasis on learning techniques for features, hair and shading.

CARTOONING - Grades 6-12
